The Power and Ease of Google™ Search Inside Your Website

Google™ Custom Search allows visitors to search within your website using Google's powerful search technology. A small search box, privately-labeled to match your brand name and site colors, will be included on your web pages. There, users can easily search your entire website without ever leaving it.

Keep Visitors Longer and Make More Sales

When you have Google™ Custom Search, you allow visitors to find useful information within your site instead of leaving to find it elsewhere.

Superior Search Technology

While other platforms offer search functionality within your website, none match the quality and power of Google's™ custom search. The same technologies that transformed Google into a multi-billion dollar powerhouse can be at your disposal. Don't risk losing customers by having a bad search engine inside your website.
